

# Stargazer Ranch Alpacas Sales List

We are winding down and heading toward retirement.

This is the first time in 20 years that all alpacas in our herd are available to be purchased. Nothing is being held back. Neither is any information regarding the animal's history and production.

Our breeding program had been based upon high standards of improving conformation and fleece production through genetic selection. You will find some of the most genetically advanced alpacas that rank at the top of the industry for perpetual fineness and fleece weight production.

We have detailed husbandry records on every animal so you can feel assured of being a fully informed new owner.

We make price considerations for groups of animals and a higher discount when a male is included in the package. We are looking to reduce our herd in half by the end of this year and the remaining in the next couple years. Prices become firmer the closer we are to reaching our goals. Terms are available.

Some females are bred and due in 2019. Others we are waiting to be confirmed by ultrasound. The best way to find out the current status of a female is to call. All open adult females are available to be bred to your choice any of our available herdsires for a \$1,000 (which includes 3 month board and ultrasound).

1/2 interest in males means we need to retain breedings until we fully retire and resolve any obligation.

We are here to provide support, education, mentoring and any guarantees that are necessary to be fulfilled. There are many breeders who are not familiar with EPD's or what they are used for... please call with any questions. Prices are subject to change.

Easiest time to schedule a visit is Friday through Monday evening.
